HGI

ENTRY DOOR SYSTEMS

Welcome Home

Beauty

HGI Entry Systems will add an element of beauty which will be enjoyed by you, the homeowner, as well as every visitor who comes to your door. Lovely stained and painted finishes will highlight the myriad of decorative glass and unique hardware options. Your new front door will add charm, curb appeal and value to your home.

Strength

All HGI Steel Entry Systems are built using an all-steel construction 22 gauge door which is 33% heavier than competitors doors for security and durability. All HGI FiberStar Entry Doors are constructed with state-of-the-art technology. Laminated composite rails and high impact skins yield outstanding strength and durability.

Safety

The safety of your home and family is always first. HGI doors offer such features as an 18 gauge steel frame, deadbolt, security plates and tempered safety glass. Our steel edge door has over ten times the strength of a wood edge door to protect against forced entry.

Energy Savings

HGI doors will insulate better than many walls with a R rating of 15.1. In layman's terms, our door is the best in the industry at keeping the inside in and the outside out. Windows and doors represent the biggest energy loss in most homes. Allow a beautiful HGI door to save you money.

Lifetime & Beyond Warranty

Like the Amish artisans that live and work near the HOME GUARD factory in Grabill, Indiana, we too craft each door one at a time. We are proud to offer a Lifetime & Beyond Limited Warranty on All HOME GUARD Entry Doors. Our exclusive transferable warranty gives peace-of-mind protection against warping, delamination and twisting of door slab for as long as you own the door...and beyond. Please see our Warranty Card for details.

HGI 101: How to Build A Door

1.) Select a HOME GUARD® door style from the 27 unique families of glass and doors styles.

2.) Choose from our twenty-four decorator colors or twenty hand applied stain finishes for the inside and outside of your new entry door.

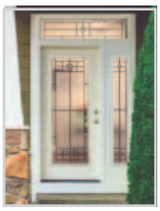

3.) Select a knob, lever or handleset (even keyless!) from the many styles and finishes offered to compliment your door.

4.) Add functionality with a peepsite, kickplate or magazine slot. Add strength and beauty with our exclusive HGI Cladwrap or Timberframe door frame options.

Steel Door Features

HOME GUARD® IronWood Paintable Smooth Steel and Stainable Steel Doors are the ultimate in home security, beauty, long-term value and longevity. Increased energy savings, safety, home value, curb appeal, a rock-solid warranty—there are a multitude of reasons to upgrade today to a HOME GUARD door.

20 or 22 Gauge

HGI now stocks optional 20 Gauge Smooth Steel doors. Hot-dipped galvanized steel yields the highest forced entry test rating in the ASTM. 20 GA. is 60% heavier than a 25-gauge builder series steel door. Stock NC sizes are 36x80 & 32x80 and custom sizes are available. The most durable residential door on the market!

Superior Energy Conservation

All doors feature steel edge construction and are fully insulated with an inner core of environmentally friendly polyurethane foam and offer a superior R-factor of 15.1 for the ultimate in energy conservation. Our steel doors are wood-free and will not swell, split, twist, warp or rot like other steel doors with wood rails and lock block.

20 Stains & 24 Color Choices

Doors can be stained with one of our 20 hand-rubbed finishes and sealed with HGI's exclusive GuardCoat.® Choose from one of our beautiful stains or 24 Pro-Match colors. Combine solid color on one side and stain on the other. Whichever you choose, your finish is backed by our exclusive 15 Year Finish Warranty.

Weather-Tight Weather-Strip

The door bottom weather-strip slides off and on for easy replacement and forms a weather-tight seal to the threshold. The result is a superior seal that keeps the inside in and the outside out.

"L" Frame Adjustable Strike Plate

Our exclusive steel "L" frame provides the next measure of security adding strength to your en-trance. This crucial element is available on all HGI replacement doors and our adjustable strike plate makes installation easy on every door upgrade.

The Security of Steel

The unequaled security of steel - A wood edge steel door (left) cracked under the force of one hit of a 100 lb. test weight. Steel edge doors (right) did not force open after seven hits of a 100 lb. test weight.

Timberframe® Composite Frame

HOME GUARD's Exclusive Timberframe® all-composite frame offers all the beauty of wood with none of the headaches. Completely maintenance and worry free, the Timberframe® will not warp, rot, mold or wick water and can be stained to match all HGI door stains. Timberframe® is an option on most HOME GUARD doors.

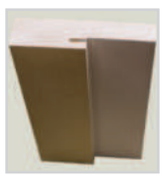

Adjustable Hinge Plate

HOME GUARD's exclusive, patented Adjustable Hinge Plate System adjusts up or down and in or out for a tighter weatherseal against the elements and gives you increased energy savings. Also a standard feature on all Signature Series Fiberglass Doors.

Finish-Match 3-Knuckle Hinge

Finish matched 3-Knuckle Hinges match your handleset and are standard on all doors. Streamlined 3-knuckle barrel design provides a modern, less clunky appearance on doors compared to 5-knuckle alternatives.

Duraframe Jambs

Duraframe Jambs are the standard wood frame on all HGI doors and are constructed using an Alaskan Cypress base which repels water preventing the wood from wicking and rotting.

High Security Composite Lock Block

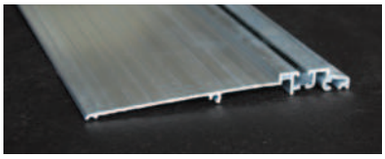

HGI's full 4" X 10" Composite Lock Block has more screw holding power than wood. Injection molded for uniform size, there is no distortion of the door skin typically found with wood lock blocks.

Fiberglass Door Features

HOME GUARD FiberStar™ Fiberglass Doors are beautifully designed with patented Hydroshield™ technology.
This revolutionary system ensures that water is repelled from the perimeter of the door to eliminate twisting or warping.

Optional Low-Profile, Handicapped Sill Available

Deep detailed embossments create a real wood door look without the maintenance and headaches of real wood.

Door can be stained with one of our 20 hand-rubbed finishes and sealed with HGI's exclusive GuardCoat.® Choose from one of our beautiful stains or 24 Pro-Match colors. Combine solid color on one side and stain on the other. Whichever you choose, your finish is backed by our exclusive 15 Year Finish Warranty.

Special exterior rails are used on the perimeter to shut out moisture from all fiberglass doors. Patented Hydroshield technology ensures against warping, twisting, rotting or splitting... clearly setting our fiberglass doors apart from all the others.

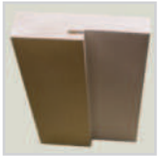

HGI's exclusive Timberframe® all-composite frame offers all the beauty of wood with none of the headaches. Completely maintenance and worry free, the Timberframe® will not warp, rot, mold or wick water and can be stained to match all HGI door stains. Timberframe® is an option on most HGI doors.

The door bottom weather-strip slides off and on for easy replacement and forms a weather-tight seal to the threshold. The result is a superior seal that keeps the inside in and the outside out.

Finish matched 3-Knuckle Hinges match your handleset and are standard on all doors. Streamlined 3-knuckle barrel design provides a modern, less clunky appearance on doors compared to 5-knuckle alternatives.

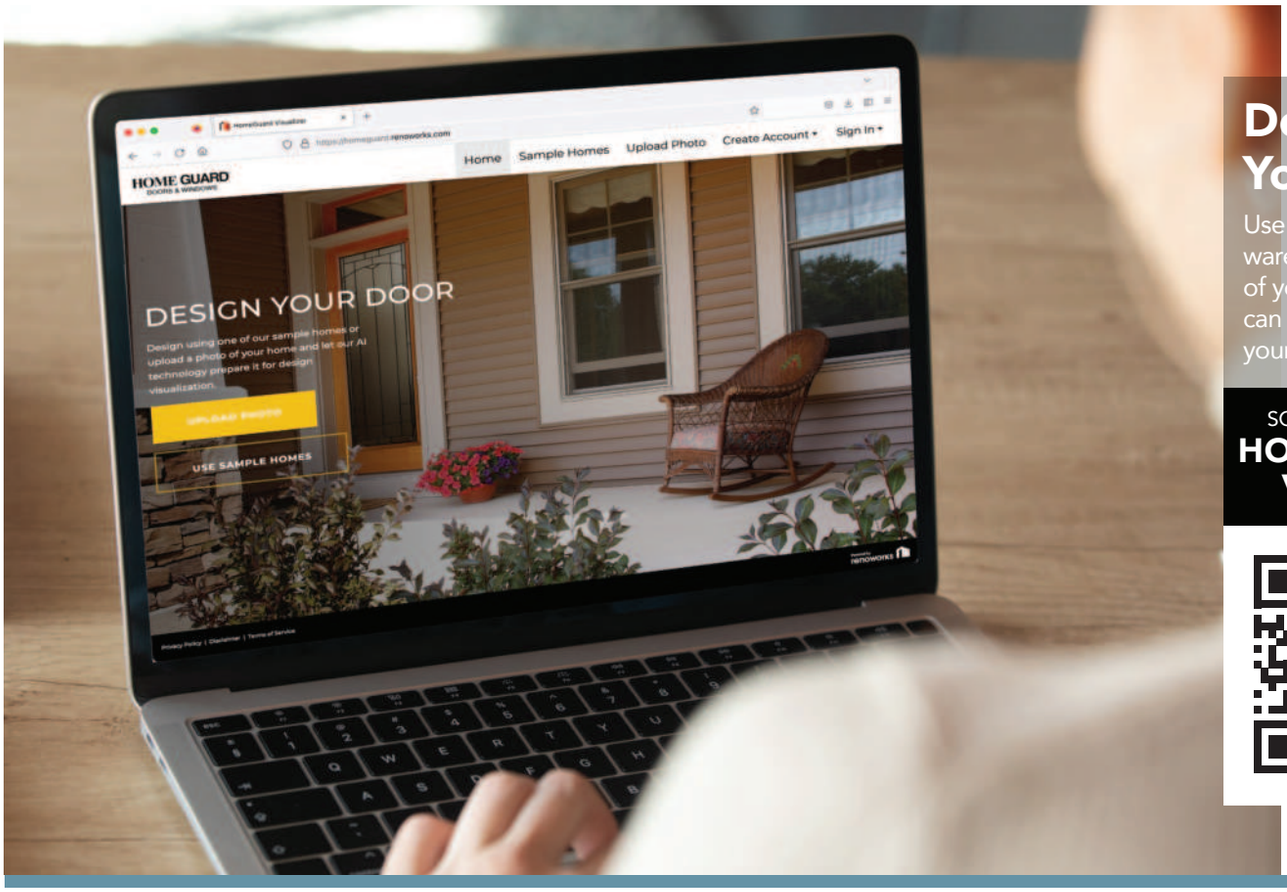

Duraframe Jambs are the standard wood frame on all HGI doors and are constructed using an Alaskan Cypress base which repels water preventing the wood from wicking and rotting.

Environmentally Sound Polyurethane Foam Core

While some other fiberglass door manufacturers still use HCFC-free foam, we are proud to offer a truly "green" door which is completely CFC-free in compliance with the U.S. environmental standards to prevent destruction to the Earth's ozone layer. The advanced polyurethane core used in our doors also enhances the door's soundproofing capabilities and provides insulation properties six times greater than wood.

Privacy...On Demand

Say goodbye to curtains, shades and blinds, and hello to privacy in your home or workplace with innovative CLiC Privacy Glass from Home Guard.

This remarkable new product provides instant privacy, ultra-reliable construction and unmatched clarity. CLiC's liquid crystal technology switches from crystal clear to obscure with the touch of a button, so when electricity is on, windows with CLiC glass look exactly like traditional clear glass.
When turned off, the liquid crystals scatter, diffusing the light into a soft even glow in less than a second.

- Suitable for use in residential and commercial exterior window applications
- Provides complete coverage from edge-to-edge, with no off-axis haze, fogginess or distortion
- Controls and limits sound transmission for added acoustic privacy
- No special maintenance needed and can be combined with other glass glazing features
- Draws only a small amount of electricity to operate in its clear state
- Resists fading by blocking UV light and provides protection against forced entry and storm damage

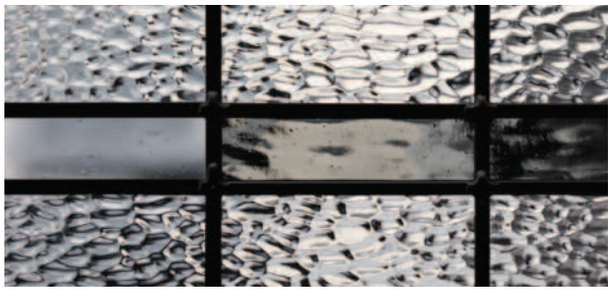

Home Guard Decorative Glass Families

Bay Point

A contemporary nod to traditional doorglass, Bay Point exudes lived-in luxury with its thoughtful minimalism. Panels of bold texture create a medium level of privacy interspersed with eye-catching patina caming and accents of clear seedy and gray bubble glass to welcome visitors inside.

Signature Series Natural Fiberglass Grains

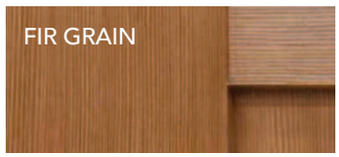

The beauty of natural wood, improved.

HGI's Signature Door Series features a patented grain technology process that authentically replicates any natural surface. The door process begins by hand, selecting the most desirable wood pieces which are then used to build a real wood door. A silicone casting accurately picks up the finest details of the wood grain which are transferred to the door mold using our Nickel Vapor Deposition Technology. The resulting mold is utilized to produce the fiber glass skin of each Signature Series door. The result is a breathtaking reproduction with random grain depths and all the natural characteristics of natural wood, but free from the warping, bowing, delamination and moisture issues that plague real wood doors. Born from real wood but vastly improved upon by state-of-the-art technology. The best of both worlds: HGI Signature Series Doors.

HOME GUARD Exclusive Features

CLADWRAP®

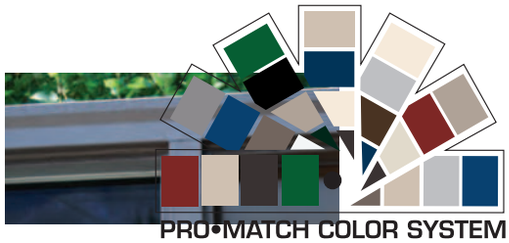

CLADWRAP®

Machine-formed Aluminum Cladding System for ALL HOME GUARD Entry System Doors

CLADWRAP® is a factory-formed, pre-fit cladding system that provides a beautiful, protective coating for the door jamb and brick mold. Available in both coordinating and complimentary colors, our unique cladding system offers:

- Jamb Protection
- Lasting Beauty
- Freedom from Maintenance
- Textured Finish

Please refer to page 45 for our complete palette of Pro-Match Colors.

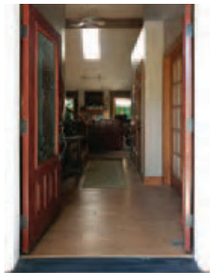

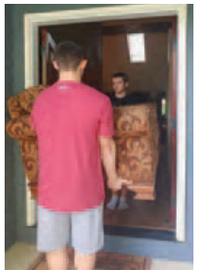

Hinged Sidelite

The HGI hinged sidelite units gives homeowners an option to compliment their entry with clear or decorative glass while allowing operation for full clearance in the opening. The sidelite portion of these door systems operates exactly like the less active side of a double door with an astragal which closes out the weather and secures into the opening with head and foot pins which engage into the top of the door frame and threshold. Beautiful and functionional...another HGI exclusive.

Now available in steel and fibeglass. Jamb outer dimension width will be 7/8" less than standard door and sidelite combo. Wider trim may be necessary.

Timber Frame

TimberFrame®

Hand Finished Composite Jambs & Brickmold

HOME GUARD® is proud to offer TimberFrame® Jambs and Brickmold. These beautiful, hand-stained jambs and brickmold are the perfect compliment to the Ironwood® collection of Stained Steel Entry Doors

TimberFrame® jambs and brickmold are stained to match Ironwood® doors and all are protected with a GuardCoat coating for years of lasting and durable beauty. Add the look and beauty of wood to your home's entrance with the added strength and security of steel... but with none of the headaches.

- Hand Stained To Match All HomeGuard® Door Stains
- Completely Maintenance & Worry-Free
- Will Not Wick Water
- Will Not Warp, Rot or Mold
- 100% Composite Material
- Available for Single Doors, Double Doors & Single Doors With Sidelites

Burglar Guard Strike

The Burglar Guard is an innovative HGI exclusive feature that transforms a standard wood door jamb into a high security entryway. The Burglar Guard replaces the entire strike portion of the jamb with two walls of heavy steel for the ultimate protection against forced entry. The Burglar Guard also has two 2 -way jamb adjusters to create the perfect margin between the door and the jamb which are accessible simply by removing the strike plates. The strike plates are also adjustable in and out to offer the correct point of insertion for both the deadbolt and the latch.

- 2-Way Jamb Adjuster
- Adjusts latch for both deadbolt & strike
- Allows for perfect weatherstrip compression
- Allows door to close and latch at exactly the right point
- Virtually eliminates kick-in
- Available on single doors and sidelight units

See the Burglar Guard in action!

Open the camera app on your phone or tablet and point the QR code on the right.
Click on the pop-up banner to see our YouTube video of the Burglar Guard demonstration.

American Home Series

To let the sun shine through, choose clear glass for these traditional door styles. For privacy, many American Home series doors may be available as a Private Lite, such as textured rain glass. HGI American Home doors an be stained with one of our 20 hand-rubbed finishes and sealed with HOME GUARD's exclusive GuardCoat.® Choose from one of our beautiful stains or 24 Pro-Match colors. Combine solid color on one side and stain on the other. Whichever you choose,your finish is backed by our exclusive 15 Year Finish Warranty. Please contact your HGI Inside Sales Representative for availability and pricing.

RETRO by HOME GUARD

Trends come and go. Good design lasts. As do good memories of homes you grew up in and architectural styles you've admired. HGI's Retro Collection celebrates the best of your design history. Architectural style is what gives a home character. The charm of bungalows. The geometric patterns of mid-century minimalism. Because you're inspired by your home's architecture or the vision of the one you're building, our Retro Collection is for you. It's the finishing touch for the discerning homeowner who appreciates a touch of timeless design and bold color strokes.

The minimalist characteristic of the Shaker style is ideal for anyone looking to add traditional or craftsman style to their home.

Roundtop Entry Doors

HGI is proud to be one of a handful of manufacturers who have perfected the art of producing high quality roundtop and archtop entry doors. These beautiful and unique doors are made from 22 gauge steel and include a factory-installed steel cap. The HGI Roundtop door can be ordered as a replacement frame unit or as a Timeberframe new construction unit. Our roundtops make a perfect, energy saving replacement for antiquated wood doors. Available in 24 baked-on color options or 20 beautiful woodgrain hand-stained finishes, these doors exude charisma and rustic charm, while maintaining modern operation, longevity and energy efficiency.

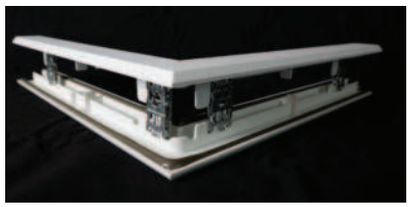

- 22 Gauge Steel
- Factory Steel Cap
- Replacement Frame or Timberframe® New Construction
- Beautiful renovations
- Wood grains to replace Wood doors
- Archtops are also available

Meet ZEEL®

A minimal design with endless opportunities. ZEEL frames provide a flush-glazed look with the decorative glass styles homeowners desire.

Sleek & Minimal - Designed to be stained or painted, ZEEL blends seamlessly into the entry door, allowing the doorglass to take center stage. This clean, **low-profile look** offers an alternative to flush-glazed doors that provides the style homeowners desire.

Strongest Yet - **FiberMate Plus®** exceeds performance expectations in extreme environments, resisting scalloping and warping in severe temperatures and direct sunlight even when painted dark colors.

Innovative Clip System - ZEEL eliminates the need for screws and cumbersome screw hole covers with an innovative clip system. This allows each frame to sit flush.

French Doors

Double doors, or "French Doors" as they are called, offer the opportunity for full access to your home or business. Very helpful for the occasional furniture move and a wonderful way to bring in lots of light or decorative glass accents. Double doors are available with hardware on the primary active door or both the active and secondary door as an option. Double doors are equipped with a state of the art astragal that has a weather close out seal that travels up and down with the internal head and foot bolts. For a classic look consider a HGI french door set available in all door styles, color and stain options. All door styles are available as French/Double Doors.

Easy to operate bolts that secure the secondary door top and bottom

Close out seal travels with slide bolts to ensure a good seal without the usual wear and tear.

Savannah | Patio Door Systems

Savannah Patio Doors are constructed to allow for one operational door hinged off of one fixed door panel. All units include a high quality Silensia screen with nylon guides and patented rollers. The Savannah has been downsized slightly for easy replacement of standard size sliding doors or it can now be ordered to replace full-size 6' door units. All Savannah units are constructed using our heavy 22 gauge door and carry the exclusive Lifetime & Beyond Warranty. Savannah Patio Doors are available in woodgrain steel.

Savannah Patio Doors are available in ANY full view glass style!

Silensia patented screen with nylon glides and adjustable rollers.

Deadbolt & Leverset Available in Polished Brass, Satin Nickel and Matte Black

The Endura sill offers a non-conductive, high seal adjustable sill in a composite material that is guaranteed for life.

Still searching for the perfect color? Custom paint colors are available on all HGI Smooth Entry Doors. Contact your HGI Representative for details. Additional lead-time required.

Transform your home's curb appeal with Home Guard's premium painted doors. We combine rigorous manufacturing standards with beautiful design to create entryways that endure. Our steel doors start with double-sided galvanized skin and a protective enamel primer. From there, our artisans hand-sand and chemically prep every steel and fiberglass door for a pristine surface. We then apply two coats of specialized, custom-blended enamel, baking it on at 120° for a rock-hard finish. After a thorough quality inspection, your door is assembled and shipped, backed by our trusted 15-year warranty.

TimberStain

TimberStain is only available on textured wood grain Entry Door products.

Our Timber Stain coating system combines nature-inspired colors and rich textures to highlight the unique design of every door. The process begins with a base coat, followed by an initial oven-curing cycle. Next, Home Guard artisans hand-apply each stain to bring out the wood's organic beauty. After a second oven-curing step, we apply a protective, two-part polyurethane clear coat. A final oven-curing ensures a highly durable, long-lasting finish. To guarantee quality, every Timber Stain door finish comes with a 15-year warranty.

20-Gauge Steel Doors

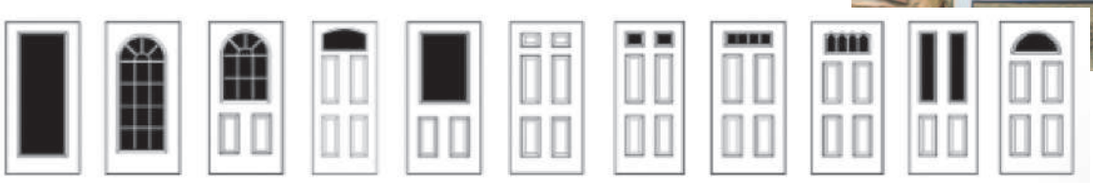

Home Guard in now stocking 20-Gauge Smooth Steel Doors.

The most durable residential door on the market!

- Hot-dipped galvanized steel
- Epoxy inside coating
- 36x80 & 32x80 (NC sizes)
- Custom sizes available
- Highest rating in the ASTM F476 forced entry tests (10 blows of a 100 lb. weight)
- 60% heavier than a 25-gauge builder series steel door

Available in the following 11 styles:

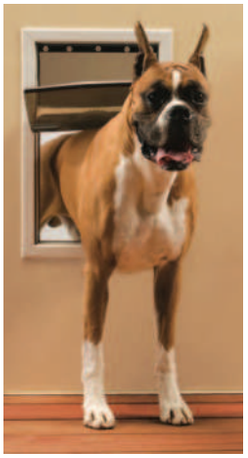

Freedom Aluminum Petdoor

PRO•MATCH COLOR SYSTEM

The HGI exclusive color match system ensures that your powder coated storm door can match HGI entry doors, vinyl windows and sliding patio doors.

Note: Storm doors are only available in clear glass.

Premium
Aluminum Storm Doors

Tempered Safety Glass

Heat-tempered safety glass ensures the safety of all family members and provides a clear weather shield that is three times stronger than regular glass.

Non-Glare Fiberglass Screen

HGI's fiberglass screen won't dent or puncture like an aluminum screen and offers a clean, non-glare view.

Arc–Welded Corners

HGI's metal inert gas (MIG) welded corners provide the strongest door available, in fact the corner is the strongest point on the door. Storm doors that are screwed together loosen, rattle & sag over time.

Unique Pocket Hinge

Our nested hinge provides strength where it is needed most. As the frame of the door carries the weight, the hinges are not being pulled from the door during operation like competitors doors. Our hinges are self-lubricating and maintenance-free.

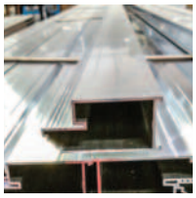

Option of Heavy-Duty Hydraulic Closure

Hydraulic closures last longer, are whisper quiet and close the door in a smooth, constant force. Designed in combination with a more robust wind chain.

Choice of Hardware

Choose from our Albany in black or white, The Brookfield in six finishes or our Full Mortise Lever lock in three metallic finishes.

1 ¼" Thick .062" Heavy Gauge Aluminum

Our premium aluminum is dent resistant and sturdy enough to provide years of beauty and performance.

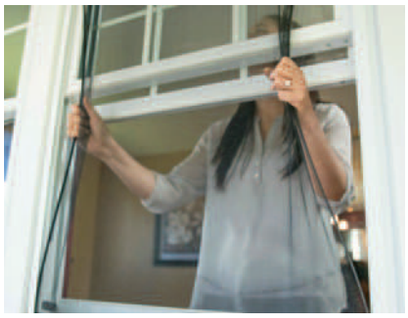

Cove Molded Frame

Our unique cove molded frame profiles offer beauty and style to your front door.

HOME GUARD® IS PLEASED TO OFFER

FLEXSCREEN®

THE WORLD'S FIRST AND ONLY FLEXIBLE SCREEN

FlexScreen is revolutionizing the window industry with its patented, problem-solving design that is beautifully invisible, damage resistant, simple, and effortless to install.

ALUMINUM FRAME SCREEN

- Bends and damages easily
- Needs to be color-matched
- Impedes your view
- Contains complicated hardware
- Frustrating installation and removal
- High cost of ownership
- Replacement rate: 1 per 30 units

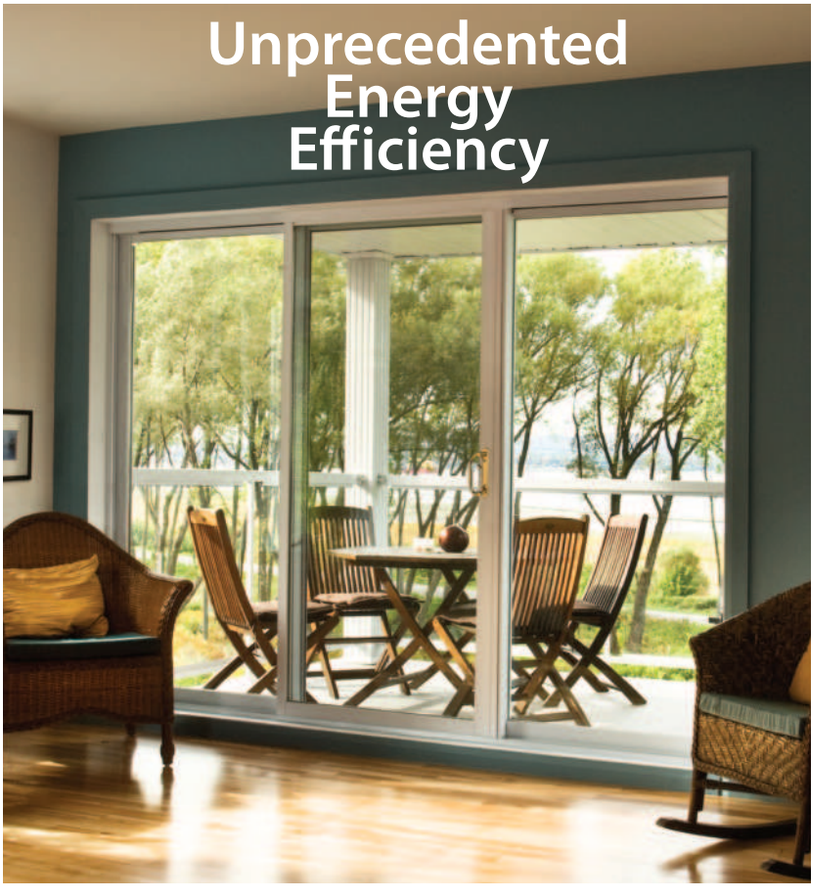

FLEXSCREEN®

- ☑ Nearly indestructible
- ☑ No color matching necessary
- ☑ Full view
- ☑ No hardware
- ☑ Effortless installation and removal
- ☑ 5 durable mesh options
- ☑ Cost-effective
- ☑ Replacement rate: 1 per 3,300 units

Premium
SLIDING PATIO DOORS

Multiple Configurations

This patio door series is available in 2-panel and 3-panel configurations, with a wide range of energy-smart glazing options and decorative grilles. Transoms with PXO bar available.

Available Standard Sizes

	Order Size	Actual Size
1	5′	58 7⁄8″ X 79 1⁄2″W
2	6′	70 7⁄8″ X 79 1⁄2″W
3	8′	94 7⁄8″ X 79 1⁄2″W
4	9′	105 7⁄8″ X 79 1⁄2″W
5	9′	102 3⁄8″ X 79 1⁄2″W
6	12′	138 3⁄8″ X 79 1⁄2″W

Home Guard PVC Patio Doors are the quietest, most thermally efficient doors on the market today.

Walk on the Premium Side.

Whether to the backyard or the pool, a Home Guard Premium Sliding Patio Door allows you to connect to your surroundings. Available in standard and custom sizes, the HGI Premium Sliding Patio Door features many unique options to deliver the ultimate in operation and performance.

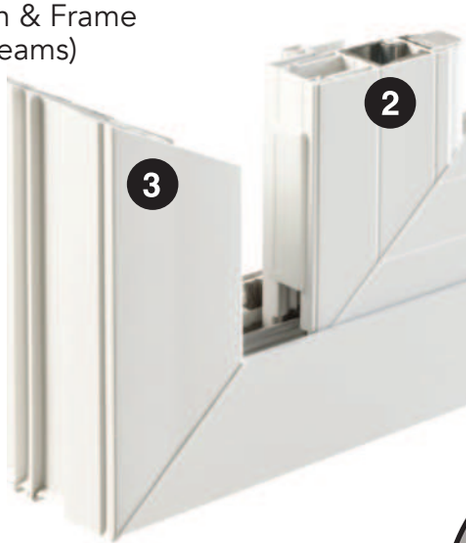

- Traditional interior millwork panel design
- Contemporary styled Multi-Point handle
- Two, three, and four-panel configurations
- Three premium wood-grain interiors
- Three vinyl colors
- Unsurpassed performance
- Metal reinforced panels
- Triple weather-stripping minimizes air infiltration
- High performance sill eliminates water penetration
- Heavy duty extruded screen with spring loaded guides
- Patented dual-tandem nylon wheels
- Custom Sizes

DESIGN PRESSURE: DP 55

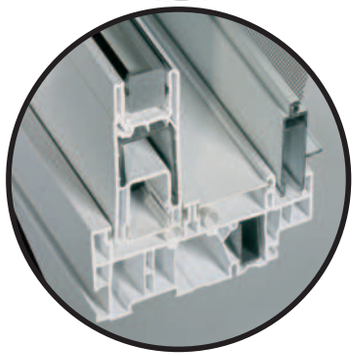

1. Multi-Cavity Design (Great Insulator)
2. Reinforced Panels (Structurally Robust)
3. Smooth, clean, easy to maintain PVC
4. Wood Grain Interiors (Beautiful and maintenance-free)
5. Shadow Groove Sash & Frame (No unsightly weld seams)

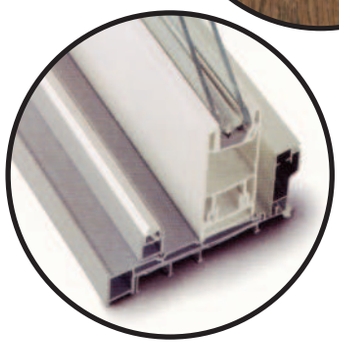

The HGI Door:
More vinyl. More cavities.
More structure. More insulation.

Multi-Chamber Design

Our multi-chamber design reduces thermal exchange and, with more enclosed air space than other brands, increases insulation values.
At lower left, a typical patio door.

Boasting a DP-55 rating, our Patio doors are built to withstand hurricane force winds in excess of 175 m.p.h.

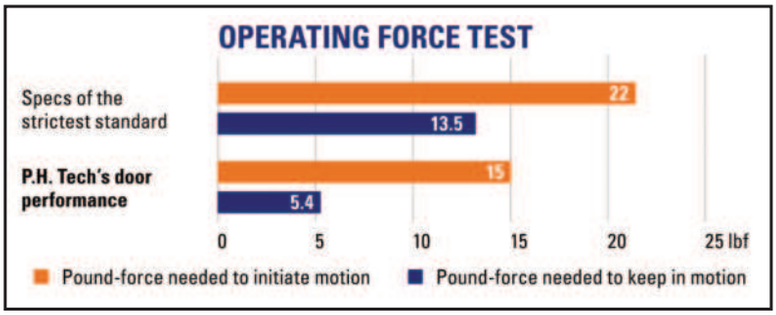

A typical patio door.

Try the Home Guard fingertip test.

Bet you can open this door with just the tip of a finger!
The easiest door to operate in its category.

Increased protection

Fixed and mobile panel rails meet and interlock perfectly, making removal from outside almost impossible. Lower sill design provides safer entry and exit.

Footlock for added security

Add the optional footlock for increased security, ease of operation and peace of mind.

PRO•MATCH COLOR SYSTEM
All colors marked "*" are Pro-Match colors.

Pro-Match Color System

Our exclusive Pro-Match color options are available to coordinate your patio door, entry doors and windows.
This option is available on exterior only.

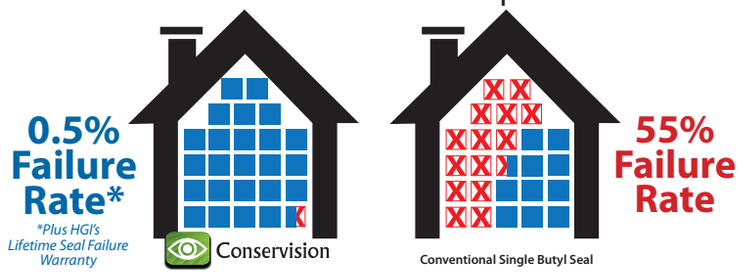

Note: Due to limitations in the printing process, colors may vary. Please see your HGI dealer for exact color samples.

OLD WORLD CRAFTSMANSHIP
MEETS MODERN TECHNOLOGY

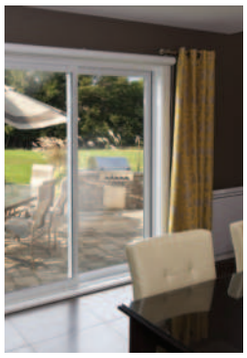

HOME GUARD® Industries' modern, 170,000 sq. ft. manufacturing facility is located on 22 acres right in the heart of the small community of Grabill, Indiana. Grabill is a quaint town of 1200 residents, supported by antique and custom cabinet shops. The surrounding area has been farmed by generations of Amish families, well known for their detail and craftsmanship. The Grabill location provides HOME GUARD with the perfect atmosphere to produce custom window and door products with uncompromising efficiency, speed and quality.
